

Bill's Picks

Homeowner Referral Directory

As full-service real estate agents, part of our mission is to make sure that our relationships with clients continue beyond the purchase or sale of their homes. We want to make sure we are a lifelong real estate resource. As a component of that, we recognize that having a portfolio of trustworthy, reliable, and responsive contractors is a hugely important part of our service. Thus, we invite you to see below for a full list of our picks for contractors and service providers, ranging from “accounting” to “window cleaning.” All of the service providers included have made a positive impression on us, our clients, and/or other real estate agents we trust. If you are looking for a specialist whose scope of business is not addressed on our list, feel free to reach out to us! We’d be more than happy to assist in your search.
